Profile

I am a recent graduate of Computer Science & Engineering from National Institute of Science & Technology, Berhampur with a strong focus on web development. I have a deep understanding of the full stack development process, from front-end design to back-end implementation. I am proficient in a variety of programming languages and technologies, including HTML, CSS, JavaScript, Python, Java, and SQL. I am also experienced in working with a variety of web development frameworks, such as Django, Flask, and React.js.

In addition to my technical skills, I am also a highly motivated and results-oriented individual. I am confident that I have the skills and experience necessary to be a valuable asset to your team.
